3D Hausplaner

Installation of the 3D Hausplaner using the example 'MASTER' version

Download

After the request of the trial version or after the purchase, the download for our 3D CAD Hausplaner Master version is provided.

When you click on this link, the following window will appear:

Please leave 'Datei speichern' set and click 'OK'. The memory space on your computer is normally set to 

There the file **3DHausplanerMaster.zip** is stored

Please note: the MASTER version has 3,3 GB and the download takes about **10 – 12 minutes**

Once the download is finished, go to the ZIP file in the corresponding folder, right click on the file and a window with different options will appear. Please choose 'extract all'.

Now a box appears where the storage space of the file can be specified or changed. Please set or pay attention to where the files are stored for the version!

Wählen Sie ein Ziel aus und klicken Sie auf "Extrahieren".

Dateien werden in diesen Ordner extrahiert:

It is best if you create a folder in advance where you store this data. This folder can be accessed via 'Browse' item.

Installation

Please deactivate your virus scanner for the time of installation. Go to the folder where the data is located and double-click on **Setup.exe**

If your computer has additional protection or screen programs, the first message appears. Please click on 'more information' and then in the 2nd window on 'Run nevertheless'.

Instructions

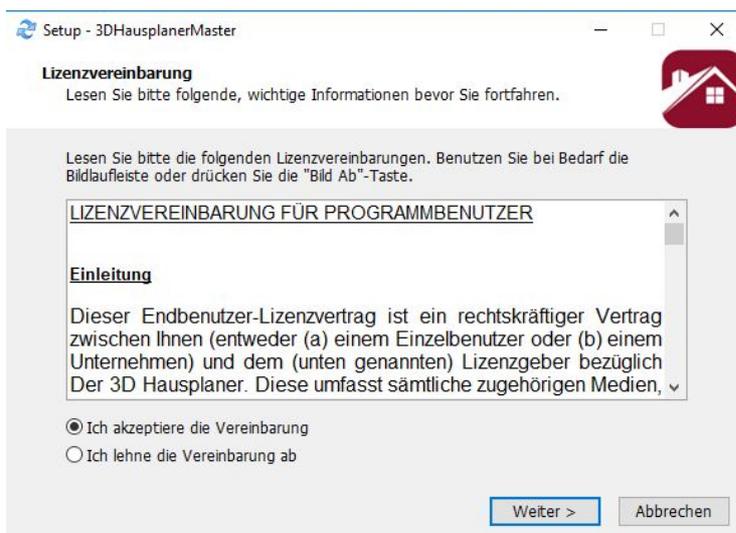

3D Hausplaner

Next, a hint may come from the user control:

'Do you want to allow this app to make changes to your device' please confirm this with **'YES'**

In the next input field you will be asked to confirm the license agreements, the installation only starts when you click on **'I accept the agreement'** and then click on **'Next'**

We recommend that you leave all defaults like this. All program-files are stored at: **C:\Program Files\3DHausplanerMaster**
All master data, databases, templates, etc. are to be found in this folder: **C:\ProgramData\3DHausplanerMaster**

A shortcut is created on the desktop. There you can start the program by double-clicking.

At the first startup a choice is made whether you want to work with the trial version or enter the serial number. Please select the appropriate option

If you get an error message that the mfl file cannot be found (a file from the windows installation where we access it) proceed as follows: you need the Visual c++ redistributables (x64) Please download it here and install the exe: https://aka.ms/vs/16/release/vc_redist.x64.exe

Unlock: You will receive a license key (serial number) with your order. Please keep it and enter it at first startup for licensing the product. **IMPORTANT!** You must choose **"ONLINE-FREISCHALTUNG"**
